WHAT OUR PATIENTS ARE SAYING

“My teeth were yellow and enamel had chipped off several front teeth causing more discoloration. Doc filled in the spots missing enamel and I had laser (Zoom!) whitening. I was given bleaching trays to further whiten. When I can back, I had the veneers put on four front teeth and had the lower teeth evened out. I used to be very self-conscious and avoid smiling. Now my teeth look great and I can smile again! The staff here is amazingly nice and helpful. Everything was explained thoroughly and I was always put at ease.”

-Joseph N.

“When I arrived at Dr. Cirka’s & Dr. Meier’s office, I was full of anxiety and had many doubts that the many serious dental issues could be successfully addressed. Dr. Cirka & Dr. Meier came up with a comprehensive plan that offered options. We moved through each part of the plan while Keila and Dr. Cirka explained each procedure in detail. All of the staff treated me with professionalism, dignity, and compassion. Having dental work such as mine was a somewhat long process, but my experience with Dr. Cirka and staff has been awesome. Thank you all very much. I am extremely happy with the final results.”

-Marie M.

“Replaced bonded front teeth with veneers (Lumineers) and performed Zoom! whitening. Overall great experience, knowledgeable and friendly staff. I am very happy with the results and would recommend Dr. Cirka and his staff to anyone.”

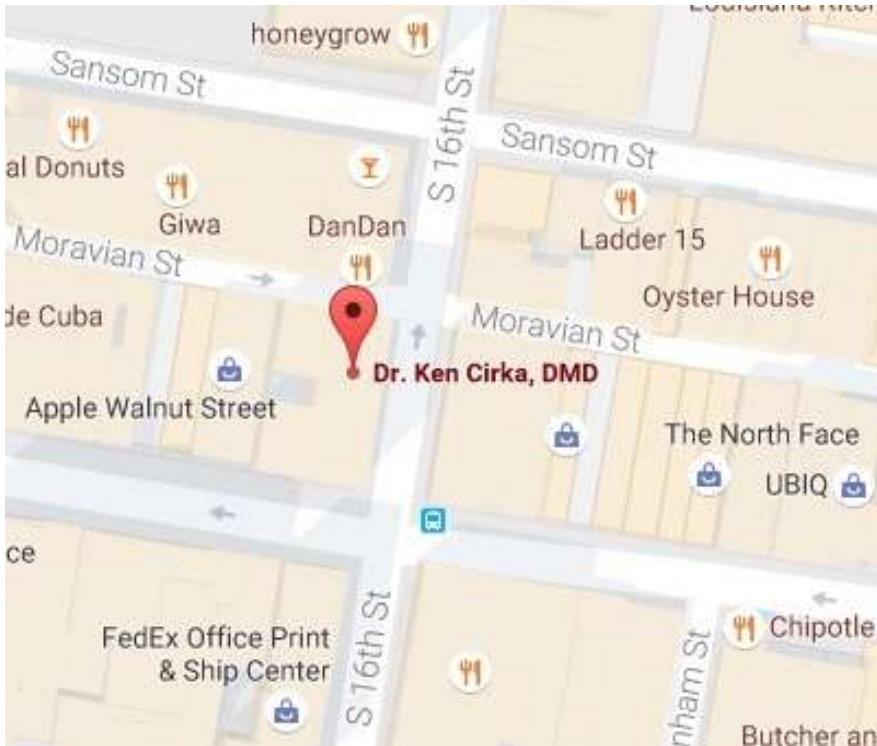

-Jeffrey F.

“I had Lumineers added to my top teeth and I was very happy with the results. My teeth look great, but just as importantly, they still look natural. I am surprised and delighted that my teeth look as good as they did in the initial pictures of my predicted before and after.”

-Joseph D.
